### **How to memorialise your loved one's Instagram account.**

When an Instagram account is memorialised, the word "Remembering" appears in front of the deceased's name. Once an account has been memorialised, it cannot be modified in any way, ie the posts made by the deceased remain unchanged. No one is able to log in or add new likes, tags, posts, or comments. Accounts that have been memorialised are hidden from the explore sections and other public areas of the platform.
